Where to Get Healthcare *When It's* Not an Emergency

Unsure of where to get care when you're sick or injured?

Your Guide to Emergency Room Alternatives

Always contact your primary care provider, if possible.

HUSKY HEALTH CONNECTICUT

Community Health Network of Connecticut, Inc.℠

PESPR-SM143260-0426

2 Ways to Get Healthcare When You're Sick or Injured

1. Urgent Care Clinics and Walk-In Medical Centers

Always contact your Primary Care Provider (PCP) first.

Your PCP is your main source of healthcare and can help coordinate care with other providers. If your PCP isn't available, Urgent Care Clinics and Walk-In Medical Centers can provide care for non-life- threatening medical problems or problems that can't wait.

Reasons to visit Urgent Care Clinics and Walk-In Medical Centers:

- Common illnesses, such as colds, coughs, and flu symptoms.
- Ear infections, sore throats, migraines, fevers, and skin infections.
- Minor injuries, such as:
  - A twisted or sprained ankle
  - Back pain
  - Minor cuts and burns
  - Minor broken bones
  - Minor eye injuries

Urgent Care Clinics and Walk-In Medical Centers usually accept walk-ins. Many are open seven days a week. Some are even open late during the week and on holidays.

At an Urgent Care Clinic, you may receive services that aren't available at your PCP's office or Walk-In Medical Center, like an X-ray or fluids through an IV. Please call the clinic of your choice to be sure they can provide the services that you need.

or

2. If your provider isn't available, please call the 24-hour Nurse Helpline at 1.800.859.9889.

Our nurses are available to help you when your provider isn't. Your provider knows you best and is your best source of help. But, you can call our nurses when you can't reach your provider or their answering service. Our registered nurses are available 24 hours a day, seven days a week.

Call the 24-hour Nurse Helpline at 1.800.859.9889.

Urgent Care Clinics and Walk-In Medical Centers that participate in the HUSKY Health program.

When it *is* an Emergency

For true emergencies, go to your nearest Emergency Room or call 911.

An emergency can be an illness or injury that needs immediate attention and/or could be life-threatening. Examples of an emergency include:

- Being unable to breathe
- A major broken bone
- An injury to the head, neck, or spine
- Loss of consciousness
- Chest pain
- Ingestion of poison

Revised May 2026
