Continental breakfast and lunch provided each day

Community Health Network of Connecticut, Inc. is pleased to announce a free Integrated Behavioral Health (IBH) educational program for Connecticut Medical Assistance Program (CMAP) enrolled Primary Care Providers (PCPs) on December 16 & 17, 2016.

Please find the objectives and agenda for this program on the reverse side.

This program is approved for 16 hours of category 1 CME credits by Medical Education Resources. This program meets CT state requirements of two hours of CME in behavioral health.

For more information and to register for this conference go to: bit.ly/CMEConference

Dr. Robert McCarron and associate faculty members will provide didactic and interactive provider training in the following areas:

- Primary care psychiatry using the Anxiety Mood Psychosis Substance misuse (AMPS) model
- Psychiatric assessments in primary care
- Mood disorders
- Anxiety disorders
- Substance misuse disorders
- Pain psychiatry
- Bipolar disorder
- Personality disorders
- Suicide risk assessment in the primary care setting
- Post-traumatic stress disorder

IBH Daily Objectives

At the conclusion of the daily agenda, the participants should be able to:

- Effectively screen for depression in a primary care setting
- Implement evidence-based treatment for depression
- Identify when it is appropriate to seek mental health consultation/referral
- Identify medically ill patients at high-risk for depression
- Describe the common symptoms or signs that overlap between medical and psychiatric illness
- Use appropriate history-taking and diagnostic studies to differentiate medical from psychiatric illness
- Provide evidence-based treatment for common co-morbid psychiatric illness within a medically ill patient
