Ways to Get Healthcare When You are Sick or Injured

Urgent Care Clinics and Walk-In Medical Centers

Always contact your Primary Care Physician (PCP) first.

Your PCP is your main source of healthcare and can help coordinate care with other providers. If your PCP is not available, urgent care clinics and walk-in medical centers can provide care for non-life threatening medical problems or problems that can't wait.

Reasons to visit urgent care clinics and walk-in medical centers:

- Common illnesses, such as colds, coughs, flu symptoms, ear infections, sore throats, migraines, fever, and skin infections.
- Minor injuries, such as a twisted or sprained ankle, back pain, minor cuts and burns, minor broken bones, and minor eye injuries.

Urgent care clinics and walk-in medical centers usually accept walk-ins. Many are open seven days a week. Some are even open late during the week and on holidays.

At an urgent care clinic, you may receive services that are not available at your PCP's office or walk-in medical center, like an X-ray or fluids through an IV. Please call the provider of your choice to be sure that they can provide the services that you need.

or

If your provider is not available, please call the 24-hour Nurse Helpline at 1.800.859.9889.

Our registered nurses are available 24 hours a day, seven days a week when you can't reach your provider or your provider's answering service. Your provider knows you best and is your best source of help, but our nurses are available to help you when your provider is not.

Call the 24-hour Nurse Helpline at 1.800.859.9889.
