**TO: Physicians, Physician Assistants, Advanced Practice Registered Nurses**

**RE: Addition of Influenza Vaccine (CPT 90688) to the Physician Office and Outpatient Fee Schedule**

Effective for dates of service October 1, 2014 and forward, the Department of Social Services (DSS) will allow reimbursement for procedure code 90688 (Influenza virus vaccine, quadrivalent, split virus, when administered to individuals 3 years of age and older, for intramuscular use) under the physician office and outpatient fee schedule.

Since procedure code 90688 is currently not supplied through the Department of Public Health's (DPH) Connecticut Vaccine Program (CVP), providers should use the appropriate vaccine and procedure code that is available through the CVP for HUSKY Health members 18 years of age and younger. Please refer to the Immunization Home Page administered by the CT DPH for more information regarding immunizations and vaccines supplied through the CVP. <http://www.ct.gov/dph/cwp/view.asp?a=3136&q=511138>.

In the future, if procedure code 90688 is added under the CVP, DSS will make the necessary updates to reimburse accordingly. As a reminder, DSS does not reimburse for immunization administration for clients 19 years of age or older.

This change applies to services reimbursed under HUSKY Health (HUSKY A, B, C, and D).
