DIAPERS/ABSORBENT PRODUCTS FOR THE MANAGEMENT OF INCONTINENCE

The primary purpose of this document is to assist providers enrolled in the Connecticut Medical Assistance Program (CMAP Providers) with the information needed to support a medical necessity determination for diapers and absorbent products. By clarifying the information needed for prior authorization of services, HUSKY Health hopes to facilitate timely review of requests so that individuals obtain the medically necessary care they need as quickly as possible.

Incontinence is the inability of the body to control urinary and bowel functions. Treatment of underlying factors can often improve incontinence. Absorbent products are diaper or brief-like garments and underpads or liners used to contain incontinence. These products can provide an increased level of independence and ability to participate in self-care for individuals who:

- Elect not to pursue treatment
- Are waiting to receive treatment
- Are waiting for a treatment to take effect
- Are unable to be (fully) cured.

CLINICAL GUIDELINE

Coverage guidelines for diapers and absorbent products, used for managing incontinence in individuals covered under the HUSKY A, C and D programs, ages 3 years and older, are made in accordance with the DSS definition of Medical Necessity. The following criteria are guidelines only. Coverage determinations are based on an assessment of the individual and his or her unique clinical needs. If the guidelines conflict with the definition of Medical Necessity, the definition of Medical Necessity shall prevail. The guidelines are as follows:

Diapers and absorbent products may be considered medically necessary in the management of incontinence associated with a broad range of medical conditions including, but not limited to, neurological conditions, congenital anomalies, injuries to the pelvic region, injuries to the spinal cord, fistula, bowel prolapse and infections. Consideration is always given to the unique needs of a given individual.

NOTE: EPSDT Special Provision

Early and Periodic Screening, Diagnosis, and Treatment (EPSDT) is a federal Medicaid requirement that requires the Connecticut Medical Assistance Program (CMAP) to cover services, products, or procedures for Medicaid enrollees under 21 years of age where the service or good is medically necessary health care to correct or ameliorate a defect, physical or mental illness, or a condition identified through a screening examination. The applicable definition of medical necessity is set forth in Conn. Gen. Stat. Section 17b-259b (2011) [ref. CMAP Provider Bulletin PB 2011-36].

Please note that authorization is based on medical necessity at the time the authorization is issued and is not a guarantee of payment. Payment is based on the individual having active coverage, benefits and policies in effect at the time of service.

To determine if a service or procedure requires prior authorization, CMAP Providers may refer to the Benefit and Authorization Grids summaries on www.ct.gov/hsuk by clicking on "For Providers" followed by "Benefit Grids". For a definitive list of benefits and service limitations, CMAP Providers may access the CMAP provider fee schedules and regulations at www.ctdssmap.com.
PROCEDURE
Prior authorization of diapers and absorbent products is required for individuals ages 3 to 12. Prior authorization for individuals ages 13 and older is required when the request for these supplies exceeds the quantity limits as outlined in this policy and on the DSS MEDS – Medical Surgical Supplies Fee Schedule. Requests for coverage of diapers and absorbent products will be reviewed in accordance with procedures in place for reviewing requests for medical supplies. Coverage determinations will be based upon a review of requested and/or submitted case-specific information.

The following information is needed to review requests for diapers and absorbent products:
1. Signed prescription from the ordering physician (for re-authorization requests a physician signature on the refill order sheet will fulfill this requirement) identifying specific type and quantity of items needed;
2. Fully completed State of Connecticut, Department of Social Services Outpatient Prior Authorization Request Form to include the primary diagnosis, a secondary diagnosis of incontinence and signed clinical statement; and
3. Additional pertinent clinical information to support the medical necessity of requested items.

Review Process:
1. Requests for diapers and absorbent products must be submitted by the billing provider/vendor.
2. Requests for items should be submitted to CHNCT via fax at 203-265-3994 using the Outpatient Prior Authorization Request Form located on the HUSKY Health website at: www.huskyhealth.com. Requests for diapers and absorbent products will be reviewed by the CHNCT Utilization Management Department in accordance with the procedures and time-frames in place for reviewing requests for DME and medical-surgical supplies. CHNCT has up to 14 calendar days to notify the provider of their decision.
3. If approved, items will be authorized for up to one year based on clinical indications.

Claim Submission:
1. Claims for diapers and absorbent products should be submitted, following the provider’s usual claims submission protocol, to Hewlett Packard Enterprises (HP).
2. When requesting diapers and absorbent products in excess of the amounts identified below:
   - All items must be delivered within the authorized time frame
   - Supplies up to the quantity limit must be delivered and billed on one of date of service
   - Supplies above the quantity limit must be delivered and billed on a different date of service

EFFECTIVE DATE
This policy is effective for prior authorization requests for diapers and absorbent products for individuals covered under the HUSKY Health Program on or after April 1, 2012.

LIMITATIONS
Diapers and absorbent products are not covered for individuals ages 0-2.

Diapers and absorbent products are not covered for individuals enrolled in the HUSKY B Program, regardless of age. Individuals enrolled in the HUSKY B program may be eligible for these items under the HUSKY Plus Program. HUSKY Plus provides supplemental coverage of children with intensive
Please note that authorization is based on medical necessity at the time the authorization is issued and is not a guarantee of payment. Payment is based on the individual having active coverage, benefits and policies in effect at the time of service.

To determine if a service or procedure requires prior authorization, CMAP Providers may refer to the Benefit and Authorization Grids summaries on www.ct.gov/husky by clicking on “For Providers” followed by “Benefit Grids”. For a definitive list of benefits and service limitations, CMAP Providers may access the CMAP provider fee schedules and regulations at www.ctdssmap.com.

physical health needs for services not covered under the HUSKY B plan who are over the age of 3. Call 1-800-440-5071 for more information. Quantities are limited per month to 180 combined diapers and pull-ons and 180 combined liners/shields/underpads.

### DEFINITIONS

1. **HUSKY A**: Connecticut children and their parents or a relative caregiver; and pregnant women may qualify for HUSKY A (also known as Medicaid). Income limits apply.

2. **HUSKY B**: Uninsured children under the age of 19 in higher income households may be eligible for HUSKY B (also known as the Children’s Health Insurance Program) depending on their family income level. Family cost-sharing may apply.

Please note that authorization is based on medical necessity at the time the authorization is issued and is not a guarantee of payment. Payment is based on the individual having active coverage, benefits and policies in effect at the time of service.

To determine if a service or procedure requires prior authorization, CMAP Providers may refer to the Benefit and Authorization Grids summaries on www.ct.gov/husky by clicking on “For Providers” followed by “Benefit Grids”. For a definitive list of benefits and service limitations, CMAP Providers may access the CMAP provider fee schedules and regulations at www.ctdssmap.com.
3. **HUSKY C**: Connecticut residents who are age 65 or older or residents who are ages 18-64 and who are blind, or have another disability, may qualify for Medicaid coverage under HUSKY C (this includes Medicaid for Employees with Disabilities (MED-Connect), if working). Income and asset limits apply.

4. **HUSKY D**: Connecticut residents who are ages 19-64 without dependent children and who: (1) do not qualify for HUSKY A; (2) do not receive Medicare; and (3) are not pregnant, may qualify for HUSKY D (also known as Medicaid for the Lowest-Income populations).

5. **HUSKY Health Program**: The HUSKY A, HUSKY B, HUSKY C, HUSKY D and HUSKY Limited Benefit programs, collectively.

6. **HUSKY Limited Benefit Program or HUSKY, LBP**: Connecticut’s implementation of limited health insurance coverage under Medicaid for individuals with tuberculosis or for family planning purposes and such coverage is substantially less than the full Medicaid coverage.

7. **HUSKY Plus Physical Program (or HUSKY Plus Program)**: A supplemental physical health program pursuant to Conn. Gen. Stat. § 17b-294, for medically eligible members of HUSKY B in Income Bands 1 and 2, whose intensive physical health needs cannot be accommodated within the HUSKY Plan, Part B.

8. **Medically Necessary or Medical Necessity**: (as defined in Connecticut General Statutes § 17b-259b) Those health services required to prevent, identify, diagnose, treat, rehabilitate or ameliorate an individual’s medical condition, including mental illness, or its effects, in order to attain or maintain the individual’s achievable health and independent functioning provided such services are: (1) Consistent with generally-accepted standards of medical practice that are defined as standards that are based on (A) credible scientific evidence published in peer-reviewed medical literature that is generally recognized by the relevant medical community, (B) recommendations of a physician-specialty society, (C) the views of physicians practicing in relevant clinical areas, and (D) any other relevant factors; (2) clinically appropriate in terms of type, frequency, timing, site, extent and duration and considered effective for the individual’s illness, injury or disease; (3) not primarily for the convenience of the individual, the individual’s health care provider or other health care providers; (4) not more costly than an alternative service or sequence of services at least as likely to produce equivalent therapeutic or diagnostic results as to the diagnosis or treatment of the individual’s illness, injury or disease; and (5) based on an assessment of the individual and his or her medical condition.

9. **Prior Authorization**: A process for approving covered services prior to the delivery of the service or initiation of the plan of care based on a determination by CHNCT as to whether the requested service is medically necessary.
